

Exercises Training Kit B

1. 3/2 Solienoid valve singel acting cylinder
2. 5/2 monostable solenoid valve, double acting cylinder
3. Hold circuit , double acting cylinder - Method 1
4. Hold circuit, double acting cylinder - Method 2
5. 5/2 valve bistable, double acting cylinder sequence
6. Rodless cylinder 2 3/2 valve control, stop in between +-
7. Sequence with pressure sensor in + chamber, rodless cylinder
8. Sequence with pressure sensor or/and cylinder sensor

Equipment list Training Kit B

- 50 Case with aluminum edges
- 51 Valve island containing: 2 3/2-valves
- 52 Pushbutton black
- 53 2 way electric selector
- 54 Valve island with electropneumatically operated valves mounted on DIN-rail including:
 - 5 5/2 monostable
 - 1 5/2 bistable
 - 2 3/2 NC
 - 2 3/2 NO
 - 16 4 mm straight fitting
 - 1 Multipole contact
- 55 Terminal block mounted on DIN-rail including/for connection of:
 - Sensors
 - Valve island
 - Connection for voltage feeding 24V DC
- 56 Two way relay 24V DC
- 60 Box of components
- 61 Pressure switch
- 62 2 Sensor bracket S-CST-01
- 63 3 Sensors for rodless cylinder
- 64 8 Sensors f or cylinder
- 65 1 Allen key for sensor
- 65 Wires for electrical connection
